The 2003 Legislative Session, DHS Budget Authorization (HB 5030) authorized dollars to implement the System of Care Needs Based Service program providing flexible funds to the Department to meet the individual needs of children and their families in order to promote safety, permanency and well-being. The Department provides these services under an agreement between the Oregon Department of Human Services and the Juvenile Rights Project, Inc. These administrative rules describe how, when and

who may use and authorize the use of the System of Care Short Form Personal Services Contract for the delivery of System of Care-funded individualized services to children and families. These rules have also been changed to reflect new Department terminology and to correct formatting and punctuation.
