**Message:**

The Employment Outcome System is a semi-annual report of performance outcomes for adults with developmental disabilities who are employed or are alternately employed. SPD distributes the survey forms, collects the data submitted, and produces this semi-annual report in accordance with ORS 427.007. Up until last year, this process was contracted to the University of Oregon, Education and Community Support Research and Evaluation Unit. The process moved back to Seniors and People with Disabilities, Office of Federal Resource Reporting and Financial Eligibility. In keeping our costs down, the data and reports from the Employment Outcome System will now be posted on the web.
