Message: For the fourth year in a row, Seniors and People with Disabilities has received funding from the US Department of Agriculture to provide coupons to low income seniors who qualify for the Senior Farmers Market Program. There are two very important goals for the program. One is to provide support to local Oregon farmers. The other is to provide senior citizens access to fresh fruits, vegetables and herbs. Only fresh Oregon grown produce can be purchased with these coupons. The coupons can not be used to purchase any processed foods or potted plants and may only be used at participating roadside/farm stands and farmers markets.

In May, notification of the program was sent out to all eligible seniors. In order to qualify for the program clients must have met the following criteria: 60 years old by April 1, have income less than \$1047 a month for an individual, and were receiving Medicaid or Food Stamps as of April 1, 2004.

A total of 39,807 seniors met the above-mentioned criteria and were sent an invitation to participate in the program. Coupons were issued on a "first come-first served" basis, until the available funds were exhausted. This year we were able to serve 14,903 seniors with coupons and an additional 300 seniors participated in community supported agriculture programs. Statewide, we were able to serve approximately 30 percent of the eligible seniors in any given area. Allowances were made for seniors living in remote areas of the state to ensure that all areas were served equally.

The eligible seniors received a \$ 60 packet of coupons that they may use at participating roadside stands and farmers markets. The coupons are valid from June 1, 2004 through October 31, 2004. The seniors that were eligible for the program

received their information and coupons last week. Beginning the week of June 14, the remaining seniors will receive notification that the program funds have been depleted.

A directory of participating roadside/farm stands and farmers markets is attached. If you have trouble opening the file, you can download free adobe reader software at the following link: <http://www.adobe.com/products/acrobat/readstep2.html>. An updated directory can be accessed throughout the season at: <http://www.oda.state.or.us>. It is strongly suggested that seniors contact their local farmstands to find out available produce and current operating hours.

Please note: the phone number listed in the instruction booklet is no longer valid. Any client who needs the document in an alternate format, needs to call 1-866-299-3562.

If you have any questions about this information, contact:
