<input checked="" type="checkbox"/> Seniors and People with Disabilities
<input type="checkbox"/> Other (please specify): |
|--|---|

Message:

Oregon ACCESS Release 23.55 includes changes to several forms and a fix to prevent a Risk Assessment from being attached to a Client Assessment with no Assessment Date.

If you have any questions about this information, contact:

Contact(s):	DHS Service Desk		
Phone:	503-945-5623	Fax:	
E-mail:	Dhs.servicedesk@state.or.us		

Forms Updates

- CAPS 2 Client Details Form (003N)
 - This form has been changed so it will no longer display medications which have been stopped. Only medications displayed on the Medication List will print on the form.
 - A change to the Client Details Medications screen was also made. The 'Stop' and 'Stop Date' columns were removed from the Medication List.

- Report of Deceased Person (454D)
 - DHS and OHA logos were added.
 - The zip code field in the Real Property section was expanded so it will now display all five digits of the zip code.
 - The agency name was changed from 'Seniors and People with Disabilities' to 'Aging and People with Disabilities'.
 - There was a minor wording change in the 'Instructions for SDS 454D'.
 - The phone numbers for EAU were replaced with the email address.

- Redetermination of Eligibility (539C)
 - DHS and OHA logos were added.
 - The agency name was changed from 'Seniors and People with Disabilities' to 'Aging and People with Disabilities'.
 - Added National Voter Registration Act (NVRA) language and radio buttons. NOTE: The radio buttons must be manually filled. They will not be automatically filled by Oregon ACCESS.

Miscellaneous

- Fix to prevent creation of a Risk Assessment when a Client Assessment has no Assessment Date.

Under normal circumstances, a worker must enter a valid Assessment Date on a newly created Client Assessment before leaving the Assessment Wizard Entry screen. Occasionally, Oregon ACCESS is shut down prior to the Assessment Date being entered. This may occur when Oregon ACCESS times out, the network connection is lost, the user ends the program using the Task Manager, etc.

When this happens, the pending Client Assessment will then be saved with an Assessment Date of 00/00/0000.

Assessment Wizard Entry

Assessment Status:	Pending	Type:	Title XIX	SPL:	
Worker:	Tester3, Tester3				
Assessment Date:	00/00/0000				
Valid Until:	02/28/2014				
Review Before:	Feb		2014		
Status Reason:					
Details:

 - Memory
 - Orientation
 - Danger to Self or Others
 - Demands on Others
 - Wandering
- Additional ADL/IADL
- Sleep
- Treatments
- Supports
- Synopsis
- SPL and Needs Summary
- Full Benefit Results

Users are able to identify Client Assessments which have been saved with no Assessment Date. Those assessments will be at the bottom of the assessment list, will have a pending status and no date.

The screenshot shows a software interface for managing assessments. On the left is a tree view under 'Assessments' containing several entries with dates and status (e.g., '11/15/12 XIX (Comp)', '11/14/12 XIX (Inc)', '02/09/12 XIX (Comp)', '02/18/11 XIX (Comp)', '11/12/10 XIX (Comp)', '02/24/10 XIX (Comp)', '02/24/09 XIX (Comp)', 'XIX (Pend)', and 'Client Details Comments'). The 'XIX (Pend)' entry is circled in red. The main area is titled 'Assessment Status Overview' and contains the following fields:

Assessment Status:	Completed	Type:	Title XIX	SPL:	03
Worker:	Tester3, Tester3				
Assessment Date:	11/15/2012				
Valid Until:	11/30/2013				
Review Before:	11/30/2013				
Status Reason:					
Details:					

If the user, after restarting Oregon ACCESS, attempts to create a Risk Assessment, the user will receive the following message:

When the user clicks the 'OK' button the system will return to its previous spot on the Client Details tree.
