Reminder Message:

To ensure that individuals retain their eligibility for Medicaid Long Term Care (LTC) services and begin receiving services through the State Plan K-option, a **mandatory** webinar is being offered.

The focus of this training will be to provide the following:

- Why the new K-option when we already serve individuals through the existing Medicaid LTC programs.
- Discussion on the relationship between the existing Medicaid LTC services and the new State Plan K-option home and community based services.
- Case management role and responsibility with the Medicaid LTC and K-option services.
- OACCESS changes and documenting requirements.

This training is mandatory for all case managers, APS workers, licensors and supervisors that provide case management services to individuals assessed for Medicaid LTC services and State Plan K-option home and CBC facility service programs. With supervisor approval, other local office staff members are encouraged to attend.
