**Message:**

This release includes:

- A fix to correct an issue with the CA/PS Assessment Date. The problem required the worker to take an action, such as tabbing after entering the Assessment date, to ensure the Assessment Date was saved properly. With this fix the workaround is no longer required.
- A change to security removes the restriction preventing a Tier 1 user from ending a treatment with a date in the past.
- The addition of an email field on the Person tab, located below the telephone numbers, to capture the email addresses of persons on the case.
